# DISCONTINUATION OF PRODUCTION OF THE DA-100 NT DIGITAL ANEMOMETER

## SERVICE INFORMATION LETTER 2020\_01

**Product affected:** DA-100 NT

**Change level:**

- optional
  - recommend by MBV
  - mandatory
  - for information only

## 1. REASON

This document describes the end of production of the DA-100 NT Digital Anemometer and the implications on future availability, service and support.

## 2. END OF PRODUCTION OF THE DA-100 NT DIGITAL ANEMOMETER

**Order and delivery:** The production of the DA-100 NT Digital Anemometer has been discontinued with immediate effect. No DA-100 NT anemometers can be ordered, and none will be delivered by MBV or Merck (operating as MilliporeSigma in the US and Canada).

A replacement product to the DA-100 NT will be announced as soon as available. It will match or exceed the specifications of the DA-100 NT and will be designed to calibrate present and defined future MAS air samplers.

**Repair Service:** Repair will be guaranteed until end of 2022, beyond this date they will be subject to spare part availability.

**Calibration Service:** Airflow calibration of DA-100 NT as well as its predecessor DA-100 will be carried out by MBV and by EMD Millipore in the future. No end date for such services has been defined or communicated.
