

AIR. NOTHING ELSE.

PRODUCTION DISCONTINUATION OF MAS-100 NT

SERVICE INFORMATION LETTER 2025-05-20

Product affected: MAS-100 NT®, MAS-100 NT HEPA in all versions.

Change level:

- mandatory
- recommended by MBV
- for information only

1. REASON

This document describes the end of production of the MAS-100 NT Microbial Air Sampler and the implications on future availability, service and support.

The production of MAS-100 NT Ex in all versions will continue for the time being.

2. END OF PRODUCTION OF THE MAS-100 NT MICROBIAL AIR SAMPLER

Order and delivery: The production of the MAS-100 NT microbial air sampler will be discontinued by the end of June 2025. After that date there is no guarantee of supply. There are MAS-100 NT units on stock at MBV and at Merck (operating as MilliporeSigma in the US and Canada). Inquire with your local MAS-100 sales team.

A replacement product to the MAS-100 NT will be announced as soon as available.

Repair Service / Accessories: Repair service and the availability of accessories are guaranteed for five years after production discontinuation. further extensions are subject to parts availability.

Calibration Service: Airflow calibration of MAS-100 NT will be carried out by MBV in Switzerland in the future. Currently there is no end date for such services planned. Please note, the calibration depends on the technical condition of the instrument. If this is too poor, calibration cannot be executed.
