

AIR. NOTHING ELSE.

PRODUCTION DISCONTINUATION OF MAS-100 NT EX

SERVICE INFORMATION LETTER 2026-02-12

Product affected: MAS-100 NT Ex®, MAS-100 NT Ex HEPA in all versions.

Change level:

- mandatory
- recommended by MBV
- for information only

1. REASON

This document describes the end of production of the MAS-100 NT Ex Microbial Air Sampler and the implications on future availability, service and support. It aims to inform you about availability of this specific product and enhance your decision making.

2. END OF PRODUCTION OF THE MAS-100 NT EX MICROBIAL AIR SAMPLER

Order and delivery: The production of the MAS-100 NT Ex microbial air sampler will be discontinued by the end of August 2026. After that date a supply can not be guaranteed anymore. As of today, there are MAS-100 NT Ex units on stock at MBV and at Merck (operating as MilliporeSigma in the US and Canada). Please inquire with your local MAS-100 sales team for availability.

A replacement product to the MAS-100 NT Ex will be announced approximately in Q3 2026.

Repair Service / Accessories: Repair service and the availability of accessories are guaranteed for five years after production discontinuation. Further extensions are subject to parts availability.

Calibration Service: Airflow calibration of MAS-100 NT Ex will be carried out by MBV in Switzerland in the future. Currently there is no end date for such services planned. Please note, the calibration depends on the technical condition of the instrument. If the condition is too poor, calibration cannot be executed anymore.
